

Features and Benefits of Cream o' Galloway ice cream

- Creamiest Scottish Ice Cream
- Milk is from the Finlay's organic cow with calf dairy farm
- Cleanest ingredient list of all Scottish ice creams - no artificial flavours, colourings, stabilisers or gums
- Apart from 3 flavours the range is gluten free
- Free range eggs are used as an emulsifier
- You can see the ice cream being made on the farm

Cream o' Galloway's ice cream enables you to offer your customers an easy to serve luxurious dessert

For customers concerned about the traceability of their food, the ice cream is made 500 metres from the cows who produce the organic milk.

TV food programmes are making more people concerned about what is being added to their food. Cream o' Galloway ice cream offers the purest ice cream in Scotland.

All food businesses have to offer allergy free options.

By using only free range eggs as an emulsifier, not only is Cream o' Galloway free from gums, it is suitable for vegetarians.

Cream o' Galloway ice cream is made by real people on a real farm. You and your customers can enjoy the authentic "From the Cow to the cone" experience of seeing the ice cream being made on a family farm.

- 9 flavours are available in individual portion size
- Over 20 flavours are available in catering packs

If you don't have space for a scoop freezer and hand washing facilities, you can still have a large selection of impulse purchase ice creams.

You can offer a changing menu of flavours, with over 20 flavours to choose from in 4.5 litre napolis.
